RE: Amusement tax

Attached you will find the proposed draft amusement tax ordinance for review. As our Equalized Assessed Valuation declines, our property tax revenues decline. We need to find other sources of revenue to balance our budget. These types of service charges also promote revenue stability by diversifying our revenue sources in that they reach beneficiaries of these events who would otherwise escape taxation.

The amusement tax is a user fee, in essence, because it applies a fee or tax to the cost of a ticket for those who want to participate or be a spectator at an event. It is more equitable because those who are benefitting from the event, especially those who do not live in the City, are paying this tax rather than our residents. While we recognize that area residents do attend these events, we believe more often than not that the largest percentage of attendees do not live in town.

The actual amount of revenue expected to be generated is difficult to calculate. I have estimated \$10,000 based on the following:

- 24 events at the raceway (we've missed some ticket sales in 2019, but there will be sales in spring of 2020)
- \$12/general ticket (avg 100/event), \$10/fence parking, \$30-50/99 camping spots
- \$12/general ticket for 37 BMX races
- \$12/14 for 9 holes, \$20/22 for 18 holes
- 5% on ticket price, camping spot rental, parking spot and round of golf

There may be some consideration of entering into rebate agreements with the not for profits, which will help them fund their events, up to 1%.
